Hi Tina,

Wanted you to see this, most importantly, the CNBC article mentioned in Bloomberg. Would probably be good for Vince to get you for 5 minutes early tomorrow.

INCOMING!

Hi Lou—Please forward this to the media office and let them know that this doesn't involve NCEA, and that I would be happy to share my perspectives on this interesting new matter—Vince

Dr. Cogliano,

Pat Rizzuto sent me your contact information. She told me you worked in the monograph program at IARC before coming back to EPA in 2011. I am trying to get a handle on whether Aaron Blair of the National Cancer Institute did something wrong in withholding unpublished data regarding the monograph on glyphosate. You may have read the Reuters story: <http://www.cnbc.com/2017/06/14/reuters-america-special-report-cancer-agency-left-in-the-dark-over-glyphosate-evidence.html>

What are your thoughts? I have attached the 2013 study drafts to give you an idea of what was not submitted to IARC.

Many thanks,

Tiffany
